

Ring Size - Find your perfect fit

Method 1: Measure an existing ring

1. Select an existing ring that fits the desired finger.
2. Measure the internal diameter of the ring (in mm).
3. Look up your ring size using the table shown below.

Method 2: Measure your finger

1. Wrap a strip of paper around your finger.
2. Mark the point where the two ends meet.
3. Measure the paper against a ruler to get the circumference of your finger (mm).
4. Divide that by 3.14 to get the diameter of your finger.
5. Look up your ring size using the table shown below.

Tips & Tricks

- Measure your fingers at the end of the day when your fingers are at their largest.
- Don't measure finger sizes when your hands are cold; let them warm up to room temperature.
- The width of a ring is an important factor in determining the right finger size.
- A wider ring may require a slightly larger size, because it covers more of your finger.
